Meeting Minutes #8

Date: 13/11/2025

Time: 16:00 – 18:00 (2h00)

Format: In Person

Attendees: Patrick, Riyad, Adina, Ina, Bianca, Adnane, Ramy

Meeting Agenda

- Set up ESLint for static code analysis
- Correct all warnings and errors detected by ESLint.
- Finalize the application and fix remaining bugs.
- Begin preparing the final report and presentation.

Key Discussion Points

- *Static Analysis with ESLint:*
    - Configured ESLint across the entire project for consistent style and syntax validation.
    - Set the linter to automatically trigger on each commit through the CI pipeline.
    - Reviewed and corrected all reported warnings and errors to ensure a clean, production-ready codebase.
    - Confirmed ESLint integration with the .yml workflow alongside Jest tests.
- *Final Application Adjustments:*
    - Addressed minor backend and frontend bugs that appeared during integration testing
    - Verified proper synchronization of all main features, including the Last-Minute Discount module and Administrator Dashboard functionalities.
    - Ensured smooth deployment across all user roles (Student, Organizer, Administrator).
    - Polished the frontend for final submission
- Final Report and Presentation Preparation :
    - Started drafting the final project report according to the required submission structure.
    - Distributed writing and presentation tasks among team members to balance workload.

Next Meeting Agenda:

- No next meeting, Meeting #8 was the final meeting
