Meeting Minutes #7

Date: 06/11/2025

Time: 16:00 – 18:00 (2h00)

Format: In Person

Attendees: Patrick, Riyad, Adina, Ina, Bianca, Adnane, Ramy

Meeting Agenda

- Set up Continuous Integration (CI) for the project.
- Write and execute unit tests using Jest.
- Continue development of the Last-Minute Discount feature.

Key Discussion Points

- *Continuous Integration Setup:*
  - Implemented a GitHub Actions workflow by creating a .yml configuration file at the root of the project
  - Configured the file to automatically run Jest tests on every commit or pull request.
  - Tested the pipeline to ensure it executes successfully and displays test and lint results in the GitHub Actions dashboard.
- *Unit Testing with Jest:*
  - Installed and configured Jest as the primary testing framework for the backend
  - Created initial test cases for the event and ticket endpoints.
  - Validated that tests run correctly as part of the CI pipeline.
  - Discussed adding coverage reporting in future iterations
- *Last-Minute Discount Feature:*
  - Continued integrating the discount logic with both frontend and backend components
  - Focused on ensuring proper synchronization between organizer inputs and ticket price updates.
  - Planned user interface improvements for organizer dashboards to make the feature more intuitive.

Next Meeting Agenda:

- Finalize and test the Last-Minute Discount feature end-to-end.
- Expand unit test coverage for main endpoints.
- Add ESLint for static code analysis on each commit.
