Meeting Minutes #3

Date: 03/10/2025

Time: 13:00 – 16:00 (3h00)

Format: In Person

Attendees: Patrick, Riyad, Adina, Ina, Bianca, Adnane

Meeting Agenda

- Backend Setup: PostgreSQL and Node.js
- Database Connection using Environment Variables
- Frontend Development: Main Page (HTML, CSS, JavaScript)
- Event Creation Feature (Organizer)

Key Discussion Points

- *Backend Setup & Database Connection:*
    o Successfully installed PostgreSQL.
    o Completed the initial Node.js setup for the backend.
    o Implemented environment variables for secure database connection.
- *Frontend Development – Main Page :*
    o Initiated development of the main page (landing page).
    o Worked on the HTML structure, CSS styling, and JavaScript functionality
- *Project Structure:*
    o Created **backend** and **frontend** folders to organize the project codebase
    o Installed all the required dependencies to run node.js, database, and express.
- *Event Creation Feature (Organizer):*
    o Began development on the event creation functionality for organizers.
    o Created a folder named **event-creation** which contains the HTML, CSS and JavaScript files
    o Added more issues in the GitHub related for the EventCreation user-story.

Next Meeting Agenda:

- Continue working on the event creation feature (backend and frontend).
- Start working on the events-analytics page.
- Implement user authentication and authorization.
- Review progress on the main page and identify further improvements.
